J2534 Pass-Thru – You Can Do It or Leave it to Us

- Use an OEM subscription to do it yourself
- Latest J2534 pass-thru protocols such as DoIP and CAN FD to enable OEM diagnostics and reprogramming application across multiple vehicle brands using a single device
- Access to OEM key codes, PIN numbers and immobilizer reset information to enable locksmith and vehicle security functionality for multiple brands in-house (NASTF credentials may be required)

- We do it for you - remote turnkey programming of complex vehicles using built-in OEM software
- No subscriptions required
- Coverage for BMW, Hyundai/Kia, FCA, Ford, GM, Honda/Acura Mercedes-Benz, Nissan, and Toyota/Lexus/Scion
- We take the risk - success guaranteed!

Opus IVS™, winner of 11 Motor Top 20 Tools Awards since 2007, builds on its legacy of leadership in J2534 pass-thru technology for diagnostics, remote programming, security functions and brand-specific technical support with the **NEW CarDAQ®-Pro**, the next generation **CarDAQ®** that adds **LIVE** diagnostic services thru IVS 360™ Support to complement RAP™, Remote Assisted Programming.

CarDAQ®-Pro is the ultimate multi-OEM diagnostic and programming solution for independent automotive repair shops, making it easy to complete complex repairs for more vehicle brands.
