

# WE MAKE IT EASY TO COMPLETE COMPLEX REPAIRS FOR MORE VEHICLE BRANDS

## Work smarter, not harder with the NEWEST generation of RAP®

Opus IVS™ is the industry leader in vehicle reprogramming; and we understand that J2534 programming can be a difficult task. We revolutionized the automotive aftermarket industry with the introduction of our Remote Assist Program (RAP®). Our RAP® team has remotely assisted automotive repair technicians, successfully programming thousands of Asian and domestic vehicles!

So, if you're an Automotive Repair Shop, or if you're a Technician, RAP®2 is the solution for you!

**Buy now at Amazon.com**

Available on

**OPUS | IVS™**

# SAME RELIABILITY WITH MORE CAPABILITY!

## How does it work?

It's as easy as 1... 2... 3...!

**1.** Give us a call to be scheduled

**2.** Plug in the RAP® kit

**3.** Power up the RAP® kit

## We flash the car!

Opus IVS™ guarantees success. Enjoy peace of mind and customer satisfaction knowing the vehicle has been successfully programmed!

## Flash Availability Check

For \$40, we can check to see if a flash is available for your particular vehicle. If it's determined that an update does exist for your vehicle-and if you allow our RAP® Technicians to do the flash-we will apply that toward the flash fee!

## Design

RAP®2 was designed and developed as a true turn-key remote solution that can be used by any technician or shop, regardless of experience.

- Windows Tablet PC
- An additional hard drive to allow for future expansion as new OE's are added
- J2534 device
- 4G Modem
- Diagnostic Network Subscription is included with RAP®2
- OEM subscriptions
- 90-amp battery maintainer capable of handling European amperage requirements
